

# IRT WOODLANDS CARE CENTRE

## INSTITUTIONAL DESIGN

LOCATION Meridan Plains, Sunshine Coast  
YEAR 2016

The IRT Woodlands care centre provides housing for 60 residents, complete with modern facilities and finishes.

The community hall was designed to create a space for residents to congregate and socialise as well as providing a central and integral section of the care centre.

Much like the hub of a wheel, this structure allows residents to socialise in a resort style environments, whilst also receiving the care that is required.

The two buildings combined were designed to reflect the coastal location, providing residents with a holiday resort ambience.
