

TAMZEN MCKELVIE

Designer

Tamzen has been with the BRD Group since early 2022 and has flourished in her role as draftsperson. Having completed a dual Diploma of Building Design and Interior Design, Tamzen is well equipped to handle the tasks that are sent her way, which are both diverse and challenging.

Being given the opportunity to put her qualifications to use, Tamzen is enjoying being part of a team that shares their knowledge and experience to support her professional growth. Working her way around the different areas, Tamzen finds she is learning something new everyday and is quick to put her new skills to use as she gets hands on experience. The team are supportive and collaborative and this is something that Tamzen knows will fast track her success in this industry.

Her favourite element of the role is working from concept plans, through to drafting stage and then seeing the project progress. Tamzen is eager to see projects move right through to completion and has gained an appreciation just how many team members are involved and play an important role in every design delivered by the BRD Group.

Tamzen comes from a family that built every home they owned, rather than buying established so she has always been around the building trade and process and perhaps this sparked her interest, as she went straight to complete her studies after graduating high school. Living with her mum, sister and their cavoodle Archie, Tamzen has a passion for camping and coast life. Not necessarily a thrill seeker, Tamzen enjoys reading, relaxing and taking Archie for walks, yet she does admit that bungee jumping in the canyons in New Zealand is on her bucket list.
