

BUDERIM RESIDENCE

RESIDENTIAL DESIGN

LOCATION Buderim, Sunshine Coast
YEAR 2019

Located at the end of a quiet street, this magnificent house speaks for itself.

This design reflects its premium location and takes full advantage of its picturesque Sunshine Coast views through the elevated outlook, with this view being visible from majority of the the rooms.

The three store structure consists of four bedrooms, with only the master bedroom and en suite located on the top floor, separate granny flat featuring a kitchenette and separate living quarters located on the lower level.

Featuring seamless indoor-outdoor living with spacious rooms that capture both the natural light and coastal breezes, this residence provides residents with a design that not only reflects the south-after location, but all that the Sunshine Coast has to offer.

The design also features a lift, wine cellar, and lap pool, with simple yet elegant materials utilised so as to not overpower the final design outcome.
