

JULIETTE CURRY

Interior Designer

Juliette has been working at BRD Group on the Sunshine Coast for over 3 years now and fills the role of Senior Interior Designer. Juliette brings interior design experience and qualifications to the team, having completed a Bachelor of Interior Design specialising in screen printing and clocking up six years practical experience in residential and landscape style design roles. Since commencing with BRD Group, Juliette has become an integral part of the team, spearheading the interior design function.

A strong communicator, Juliette works across team workflow, liaising with clients and the directors to ensure that projects are well-executed and exceed expectations. Juliette has a strong vision for herself in the future of BRD Group and is excited about accomplishing her goals within the supporting and collaborative environment. Quite a flamboyant and creative character, Juliette enjoys working on and delivering concept presentations, engaging with suppliers to source new products and attending seminars and presentations to ensure her work remains relevant, innovative and imaginative.

Juliette has a high regard for attention to detail and this is demonstrated in her work and through quality control, checking documents are detailed correctly. Keeping an open ear to clients, Juliette values feedback in the design process and feels a sense of accomplishment in delivering projects with minimal changes which can be challenging when the approval process requires many people to agree on decisions around aesthetic.

After growing up on the Gold Coast and finishing her degree there, Juliette moved to the Sunshine Coast for work and is so grateful she could maintain a coastal lifestyle while also working in her field of study. Outside of work Juliette enjoys skating or surfing or doing anything arty, from art classes to screen printing or even gardening. Currently training to do a marathon, Juliette might also be secretly preparing herself to hitchhike around Asia.
