

ESK RETAIL DEVELOPMENT

COMMERCIAL DESIGN

LOCATION Esk, Queensland
YEAR 2023

This new retail development has revitalised the main street of Esk in Regional Queensland providing a much needed larger Supermarket to service the town plus additional specialty tenancies.

The development consists of a new 1200sqm supermarket tenancy and 575sqm of specialty tenancies that are a mix of medical, discounts, pathology and cafe tenancies.

The site is a contemporary designed retail development that included a vibrant colour scheme but was still incredibly low maintenance to look after.

Since completion, the retail development is performing well above the clients expectations and has provided the Esk township with a modern supermarket that will service the town for many years to come.
