

# ONE PACIFIC AVE

## MULTI-RESIDENTIAL DESIGN

LOCATION Tannum Sands, Queensland  
YEAR 2015

The design of the iconic 'One Pacific Ave' development was successfully achieved through a collaborative process between client and design team.

Through the use of robust materials and finishes in bold contrasting forms and colours, the significant site has been reactivated.

The ground level activation is via a diverse commercial/retail tenancy offering, whilst a secure residential lobby glows with warm timber hues from within the northern street approach.

Upon entering the residences, each apartment is specifically designed to maximise the aspect of the hill top site.

The identity of each apartment was evolved relating to its signature view and the surrounding changing landscape.
