

HIGHWORTH RESIDENCE

RESIDENTIAL DESIGN

LOCATION Highworth, Sunshine Coast
YEAR 2016

Situated on a 1000sqm allotment with rural views, this charming cottage was a first home for a newly married couple.

With strict budget constraints, a simple design was utilised which took advantage of the views and prevailing breezes to keep the home cool, bright and airy.

The sloping block was used to its best advantage with a double garage and large laundry situated under the home, and an internal staircase to link the garage with the main residence.

The height and design of this home allows for the option to add extra rooms in the future.
