

# BRIGHTWATER TAVERN

HOSPITALITY DESIGN

LOCATION Brightwater, Sunshine Coast  
YEAR 2013

The Brightwater Hotel has created a new social venue within a booming southern region of the Sunshine Coast.

Located on a picturesque freshwater lake in the Brightwater estate, the hotel was designed with a focus on creating a hub of social activities for all ages.

The hotel comprises of three bars, a bistro, two dining rooms, a 250 person function facility, a gaming lounge, and a kids room.

The hotel provides a relaxed, flexible and family friendly social hub for patrons, with diversity being achieved through generous sized facilities, emphasised through the use of high level glazing and generous ceiling heights.

Natural lighting and ventilation was achieved through the implementation of oversized façade openings and expanses of glazing.

The hotel is inherently linked with its landscape and surrounding inhabitants, with the site and spaces allowing for ultimate flexibility through an open plan layout, clever screening and zoning of specific use areas.
