

INFOCUS MAROOCHYDORE

COMMERCIAL DESIGN

LOCATION Maroochydore, Sunshine Coast
YEAR 2012

Whilst retaining as much of the existing structure as possible, the extensions to the 'InFocus' building saw a 50% increase in the site area, and a 100% increase in the gross floor area.

An increase in car parking was achieved through excavation under the existing building and into the adjoining site. The building height was also increased to three storeys above the basement.

Internally, the main foyer allows flexibility of tenant spaces and features striking elements.

A new mezzanine level and stair case design with dual purpose meeting rooms, kitchenette and boardroom were also included within the interior design element of the project.
