

ANDREW MULLAMPHY

Senior Associate
Senior Building Designer

Andrew has been working with BRD Group for two decades and in that time has proven himself to be an integral member of the team and is now a Senior Associate / Senior Building Designer. When he joined the team he was new to the industry, however he was close to completion on his studies which would see him obtain a Diploma of Architectural Technology.

Andrew supervises the team, managing and maintaining their workflow, offering training and guidance, manages the programming for projects and oversees general operations. After many years in the design trade, Andrew has found deeper fulfillment in working with the team to enhance and evolve their skills and to support the collaborative environment within the BRD Group office while also remaining heavily involved with the drafting production of documentation. He encourages participation across the wider group at professional development seminars and webinars and industry events as these have been critical in developing his knowledge to the level it is now.

First and foremost, Andrew loves to see happy clients, but he admits he finds enjoyment in the tangibility of his job and seeing a finished building. Andrew loves being able to discuss building design with colleagues and friends and gets a thrill out of showing family around buildings that the BRD Group have delivered across the Sunshine Coast. With big ambitions within the company, Andrew can visualise a bright future as the business grows and as he becomes a stronger conduit between the Directors and the design teams.

At home, Andrew is Dad to two young kids and enjoys spending time with his wife who is a nurse. An easy-going guy, Andrew enjoys watching sports, playing golf or taking the kids to Sealife with their annual pass. A big fan of a cold beer on tap, it doesn't take much to keep him happy, the occasional trip to the pub, a chance to watch Liverpool play or to kick back and watch a Marvel movie. With family travel aspirations to Hawaii and Europe, Andrew's ultimate dream would be to one day play a round of golf at Augusta.
