

SPARROW EARLY LEARNING CENTRE

PUBLIC DESIGN

Sippy Downs, Sunshine Coast LOCATION
2016 YEAR

This two-storey contemporary child care centre at Sippy Downs caters for children from nursery age to children in after school care.

The centre features play rooms that lead out to covered zones, allowing for an integrated open plan space with clear viewing of the children, regardless of what space they are occupying.

A mix of steel structures and lightweight cladding throughout the interior and exterior finishes gives the building a real street presence.
