

GEM @ EMERALD

RESIDENTIAL DESIGN

Emerald, Queensland
2023

LOCATION
YEAR

Gem @ Emerald is a spacious family home that embodies contemporary living, seamless indoor-outdoor integration. The layout and orientation of the residence has created a harmonious and inviting environment for entertaining friends and family.

A highlight of this design is the thoughtful layout, featuring two wings branching out from a central core that serves as the heart of the home. The core encompasses the main living areas, including a spacious kitchen, dining room, and living room, along with a media room and rumpus room, all opening out to a large Alfresco area.
